

## ABSTRAK

Nama = Aprilianti  
Program studi = Kedokteran Gigi  
Judul = Hubungan Sikap Mahasiswa Kedokteran Gigi Universitas YARSI terhadap Perilaku Pencegahan COVID-19

**Latar belakang:** Penyakit *coronavirus* 2019 (COVID-19) telah ditetapkan sebagai pandemik global oleh *World Health Organization* (WHO) dan sudah memasuki Indonesia pada bulan Maret 2020. Melihat penambahan kasus yang semakin hari semakin banyak, penilaian sikap dan perilaku manusia selama adanya pandemik ini sangat penting, demi mengatasi agar pandemik ini segera berakhir. Perilaku pencegahan COVID-19 yang baik seseorang dipengaruhi oleh sikap yang baik oleh orang tersebut terhadap pencegahan COVID-19. Islam juga mengajarkan manusia untuk selalu memiliki sikap yang baik sehingga menghasilkan perilaku yang baik pula. **Tujuan:** Penelitian ini adalah untuk menilai sikap mahasiswa Fakultas Kedokteran Gigi Universitas YARSI terhadap perilaku pencegahan COVID-19 dan pandangannya dalam perspektif Islam. **Metode:** Jenis penelitian yang digunakan adalah *cross sectional* dan pengambilan sampel yang digunakan adalah total sampling dengan jumlah sampel 306 responden. Kuisisioner disebarakan melalui *google form* kepada seluruh responden. **Hasil:** Penelitian didapatkan bahwa sebagian besar 271 orang (86,6%) memiliki sikap yang baik dan 245 orang (80,1%) memiliki perilaku yang baik. Adanya hubungan yang signifikan antara sikap dan perilaku ( $p < 0,05$ ). **Kesimpulan:** Sebagian besar mahasiswa Fakultas Kedokteran Gigi Universitas YARSI mempunyai sikap dan perilaku yang baik dan hal tersebut sejalan dengan Agama Islam yang menyatakan bahwa sikap yang baik akan menghasilkan perilaku yang baik pula.

Kata kunci: Sikap, perilaku, pencegahan COVID-19, mahasiswa FKG YARSI

## ABSTRACT

Name = Aprilianti  
Faculty = Dentistry  
Title = The relationship Attitude and Preventive Behaviour of COVID-19  
Disease among student at Faculty of Dentistry YARSI University

**Background:** COVID-19 has been declared a global pandemic by the World Health Organization (WHO) and has entered Indonesia in March 2020. Seeing the addition of more and more cases, an assessment of human attitudes and behavior during this pandemic is very important, in order to overcome this pandemic to an end. Good COVID-19 prevention behavior is influenced by a good attitude by the person towards preventing COVID-19. Islam also teaches humans to always have a good attitude so that it produces good behavior too. **Objective:** The purpose of this study was to assess the attitudes of the Faculty of Dentistry, YARSI University towards COVID-19 prevention behavior and their views from an Islamic perspective. **Method:** This type of research is cross sectional and the sampling used is total sampling with a sample size of 306 respondents. Questionnaires were distributed online to all respondents. **Result:** The results showed that most 271 people (86.6%) had good attitudes and 245 people (80.1%) had good behavior. The majority of respondents had a good attitude and also had good COVID-19 prevention behavior as many as 218 people (80.4%) and showed a relationship between the two of  $p < 0.05$  (0.006). **Conclusion:** It can be concluded that most students of the Faculty of Dentistry, YARSI University have good attitudes and behavior and this is in line with the Islamic religion which states that a good attitude will produce good behavior as well.
