

## ABSTRAK

Nama : Ghani Affifa Ratna Oetari  
Program Studi : Kedokteran Gigi Program Sarjana  
Judul : Tingkat Kepeminatan Mahasiswa FKG YARSI Terhadap Skripsi  
di Bidang Prostodonsia

**Latar belakang:** Skripsi sebagai persyaratan untuk menyelesaikan pendidikan (S1) bagi mahasiswa. Penelitian harus didasari ilmu pengetahuan. Salah satu bidang yang menjadi penelitian untuk skripsi Mahasiswa Kedokteran Gigi yaitu Bidang Ilmu Prostodonsia. Data dari Bidang Komisi Skripsi FKG YARSI 2021 tingkat peminatan skripsi bidang prostodonsia angkatan 2018 sangat minim peminatnya. Islam mengutamakan ilmu pengetahuan di berbagai bidang. Al-Qur'an, Al-Hadist dijadikan sumber ilmu oleh umat Islam. **Tujuan penelitian:** Untuk mengetahui tingkat kepeminatan mahasiswa FKG YARSI terhadap skripsi di bidang Prostodonsia serta tinjauannya dalam perspektif Islam. **Metode penelitian:** Jenis penelitian ini dengan metode penelitian deskriptif dan menggunakan desain Cross Sectional disertai pengambilan data primer. Jumlah responden berjumlah 84. Data dianalisis menggunakan Uji *Pearson Chi-Square*. **Hasil:** Mahasiswa FKG YARSI memiliki pengetahuan yang baik untuk Pengetahuan Materi Prostodonsia, hasil penelitiannya 85,7% serta kepeminatan mahasiswa FKG YARSI terhadap skripsi di bidang Prostodonsia tinggi dengan hasil penelitiannya 90,5%. Hasil analisis Uji *Chi-Square* terdapat hubungan yang bermakna antara pengetahuan materi Prostodonsia dengan kepeminatan terhadap skripsi di bidang Prostodonsia. **Kesimpulan:** Hasil penelitian ini terdapat hubungan yang bermakna dengan P-value 0,049 antara pengetahuan materi Prostodonsia dengan kepeminatan mahasiswa FKG YARSI terhadap skripsi di bidang Prostodonsia. Hasil kepeminatan tinggi, disebabkan adanya niat, dasar kemauan yang timbul dari hati bukan atas paksaan, dan dapat bermanfaat.

Kata kunci; ilmu pengetahuan, skripsi prostodonsia, peminatan skripsi.

## ***ABSTRACT***

*Name* : Ghani Affifa Ratna Oetari

*Study Program* : Dentistry UnderGraduated Program

*Title* : *Level of Interest of YARSI Dentistry Students in Thesis in Prosthodontics*

***Background:*** Thesis as a requirement to complete education (SI) for students. Research must be based on science. One of the fields of research for the thesis of Dentistry Students is Prosthodontics. Data from the 2021 FKG YARSI Thesis Commission Division, the level of interest in the thesis in the 2018 batch of prosthodontics is very minimal. Islam prioritizes knowledge in various fields. Al-Qur'an and Hadith are used as a source of knowledge by Muslims. ***Research objectives:*** To determine the level of interest of FKG YARSI students towards theses in the field of Prosthodontics and their review from an Islamic perspective. ***Research method:*** This type of research is descriptive research method and uses a cross sectional design with primary data collection. The number of respondents was 84. The data were analyzed using the Pearson Chi-Square Test. ***Results:*** FKG YARSI students have good knowledge of Prosthodontic Material Knowledge, the results of the research are 85.7% and the interest of FKG YARSI students towards thesis in the field of Prosthodontics is high with 90.5% research results. The results of the Chi-Square Test analysis showed a significant relationship between knowledge of prosthodontics material and interest in thesis in the field of prosthodontics. ***Conclusion:*** The results of this study showed a significant relationship with a P-value of 0.049 between knowledge of the subject matter of Prosthodontics and the interest of FKG YARSI students towards theses in the field of Prosthodontics. The results of high interest, due to the intention, the basis of the will that arises from the heart not by coercion, and can be useful.

*Keyword;* Science, Prosthodontics thesis, Thesis specialization.
