Procedural Justice and Compensation for Commitment in Generation Z with Employee Job Satisfaction as Mediation and Review from an Islamic Perspective.

100 + C pages, 17 Tables, 2 Figures, and 5 Appendices

Abstract Description

This study aims to determine whether there is an effect of procedural justice and compensation on commitment to job satisfaction as mediation for Generation Z employees in Jakarta North of the survey in the perspective of Islam. The research uses explanatory research. The analytical method used is the Partial Least Square Structural Equation Modeling (PLS-SEM) method. The results showed that procedural justice had no effect on commitment, compensation had a positive and significant effect on commitment, procedural justice had a positive and significant effect on job satisfaction, compensation had a positive and significant effect on commitment, job satisfaction had a positive and significant effect on commitment, job satisfaction mediated the relationship between procedural justice and commitment, job satisfaction mediates the relationship between compensation and commitment. According to the Islamic view, work is a form of worship to Allah SWT. Therefore, Islam obliges its people to try and work hard in a positive way (halal, good, blessed, and not cheating/dzalim) so that welfare and prosperity can be achieved as Allah says inQs. At-Taubah verse 105.

Keywords: *Procedural Justice, Compensation, Job Satisfaction, Commitment, Islamic perspective.*
