***Abstract Description***

*This study aims to analyze the effect of Inflation, Earning Per Share (EPS), Return On Equity (ROE), Current Ratio (CR), and Debt To Asset Ratio (DAR) on Stock Returns in property and real estate subsector companies listed on the Indonesia Stock Exchange during the 2020–2024 period. The method used in this research is panel data regression analysis with a sample of 47 companies. The results of this study indicate that Inflation has no effect on stock returns, Earning Per Share (EPS) has no effect on stock returns, Return On Equity (ROE) has no effect on stock returns, Current Ratio (CR) has no effect on stock returns, and Debt To Asset Ratio (DAR) has no effect on stock returns. From an Islamic perspective, the variables of Inflation, Earning Per Share (EPS), Return On Equity (ROE), Current Ratio (CR), Debt To Asset Ratio (DAR), and Stock Returns are in accordance with Islamic principles as stated in the Qur'an.*
